

## How to use AirPlay/DLNA Receiver (PRO)?

Go to “Multimedia”, then “Connect” in the GEM Box Menu.

Click on the AirPlay/DLNA Receiver (PRO) APP and download the APP on Google Play (\$4.99).

Once the the AirPlay Pro is installed APP is installed, open it.

Let AirPlay Pro initialize. Once started, you will see this menu:

Check AirTunes and Airplay check boxes

An AirPlay Pro connection name will appear on the screen, i.e. « **ATV@5** » (the number at the end can vary).

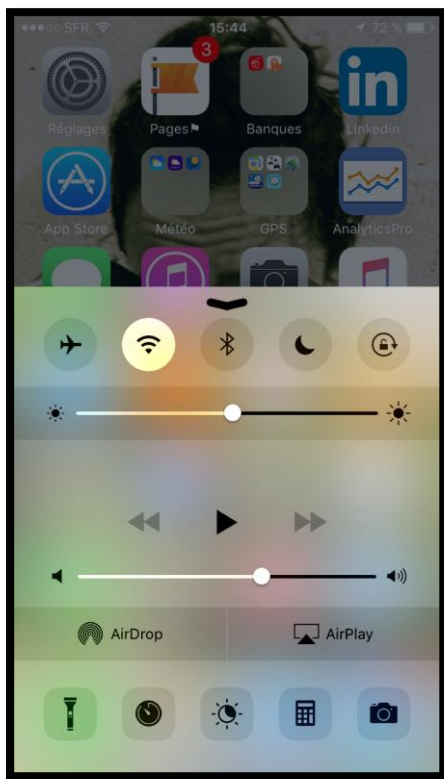

You can now leave the APP. It will now run in the background.

**Go now on your Apple mobile device.**

**Make sure your device is connected to the same Wi-Fi network!**

Select AirPlay mode (1). The AirPlay Pro APP connection name « **ATV@5** » is appearing (2).

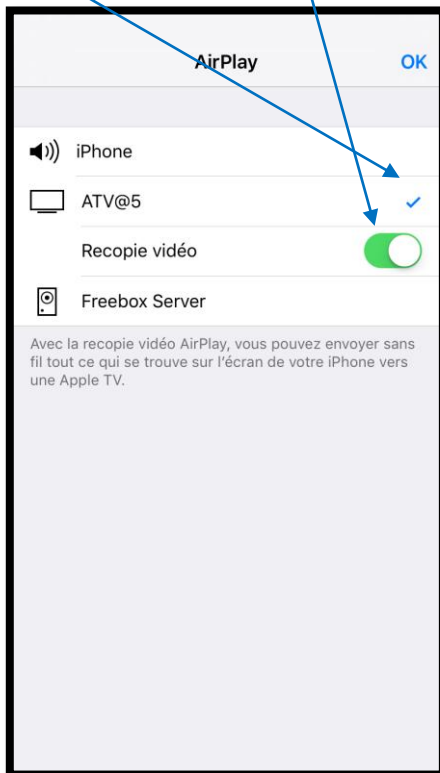

(1)

(2)

Select « **ATV@5** » and open video button

Your Apple mobile device is now connected. You can start now mirroring your mobile screen to your TV!
